Test Planner and Tracker   f261-09c   The Brogrammers

Test No. ID	Related Systems / User Story	Pre-conditions	Test Description (steps)	Expected Outcome	R1 Outcome (color code cell background)	R2 beta Outcome (color code cell background)	R2 Outcome (color code cell background)
1	Registration	System installed, running	User fills out registration form completely and accurately	A new account is created	GREEN	GREEN	GREEN
2	Registration	User already registered with same username	User fills out registration form completely and accurately	The account is not created, and the user is informed that it was not created	GREEN		GREEN
3	Registration	System installed, running	User omits essential information	The account is not created, and the user is informed that it was not created	GREEN	RED	
4	Registration	System installed, running	User omits unessential information (email)	A new account is created	GREEN		
5	Update Patient Profile Information	User Logged in	User changes a bit of personal information (phone number) in their registration form	The update is saved	GREEN	GREEN	
6	Create Patient Appointment	User Logged in	User inputs time and day	The appointment is created	GREEN	RED	GREEN
7	Cancel Patient Appointment	User Logged in, Appointment Created	User selects the appointment they'd like to cancel	The appointment is removed	RED		GREEN
8	Appointment Calendar	User Logged in	User creates an appointment and the appointment is displayed on the calendar	The appointment is displayed on the calendar	GREEN	GREEN	Outdated Test Case (Doctors accept appointments now)
9	Appointment Calendar	User Logged in, Appointment Created	User deleted appointment, goes to calendar view	The deleted appointment is not displayed	RED	RED	GREEN
10	Logger	User registered	User logs in	A log item for the user's log in action is created	GREEN		GREEN
11	Logger	User Logged in	User creates an appointment	A log item for the user's schedule item creation is created	GREEN	GREEN	Doesnt make Log Item (RED)
12	Logger	User Logged in	User deletes an appointment	A log item for the user's removal of an appointment is created	GREEN	RED	Doesnt make Log Item (RED)
13	Logger view	Use Logged it	User creates an appointment, goes to Logger View	a log item for the user's log in action is displayed	GREEN	GREEN	Doesnt make Log Item (GREEN)
14	Registration	System installed, running	User registers with an invalid date of birth	The account is not created, and the user is informed that it was not created	GREEN		GREEN
15	Registration	System installed, running	User registers with an invalid phone number	The account is not created, and the user is informed that it was not created	RED	GREEN	GREEN
16	Messaging	System installed, running	User requests to send new message to a valid user with message body field filled out .	Message is stored in system, reciever recives a new message and notification, sender recives conformation message was sent		GREEN	
17	Messaging	User logged in	User sends the message without filling the receiver information	Message is not sent.		GREEN	
18	Registration	System installed, running.	Doctor fills out registration form completely and accurately	A new account is created		GREEN	
19	Registration	Doctor already registerd with same username	Doctor fills out registration form completely and accurately	The account is not created, and the user is informed that it was not created			GREEN
20	Registration	System installed, running	Doctor omits essential information (Last name)	The account is not created, and the user is informed that it was not created			GREEN
21	Registration	System installed, running	Doctor omits unessential information (email)	A new account is created			GREEN
22	Registration	System installed, running	Nurse fills out registration form completely and accurately	A new account is created			GREEN
23	Registration	Nurse already registered with same username	Nurse fills out registration form completely and accurately	The account is not created, and the user is informed that it was not created			GREEN

24	Registration	System installed, running	Nurse omits essential information (Last name)	The account is not created, and the user is informed that it was not created			
25	Registration	System installed, running	Nurse omits unessential information (email)	A new account is created			
26	Registration	System installed, running	Hospital Administrator fills out registration form completely and accurately	A new account is created			
27	Registration	Nurse already registered with same username	Hospital Administrator fills out registration form completely and accurately	The account is not created, and the user is informed that it was not created			
28	Registration	System installed, running	Hospital Admininstrator omits essential information (Last name)	The account is not created, and the user is informed that it was not created			
29	Registration	System installed, running	Hospital Admininstrator omits unessential information (email)	A new account is created			
30	Create Drug	Doctor logged in, system running	Doctor adds a new drug filling out the name field correctly	A new drug is created and stored in the database			
31	Create Drug	Doctor logged in, system running	Doctor adds a new drug but does not fill out the name field correctly	A new drug is not created			
32	Create Condition	Doctor logged in, system running	Doctor adds a new condition filling out the name field correctly	A new condition is created and stored in the database			
33	Create Condition	Doctor logged in, system running	Doctor adds a new condition but does not fill out the name field correctly	A new condition is not created			
34	Appointment Calendar	Doctor logged in	doctor verifies the patient's appointment	verified appointment added to the doctor's calendar and patient can view the verified appointment			
35	Create Prescription	Doctor logged in, the drug the doctor wants to add has been created, the doctor has a patient	Doctor correctly fills out the prescription form	A prescription is created and stored in the database			
36	Create Diagnosis	Doctor logged in, the condition the doctor wants to add has been created, the doctor has a patient	Doctor correctly fills out the diagnosis form	A diagnosis is created and stored in the database			
37	Create Prescription	Doctor logged in, the drug the doctor wants to add has not been created, the doctor has a patient	Doctor correctly fills out the prescription form except a drug is not selected	A new prescription is not created and the system prompts the doctor to fill out the missing field			
38	Create Prescription	Doctor logged in, the drug the doctor wants to add has been created, the doctor does not have a patient	Doctor correctly fills out the prescription form except a patient is not selected	A new prescription is not created and the system prompts the doctor to fill out the missing field			
39	Create Diagnosis	Doctor logged in, the condition the doctor wants to add has not been created, the doctor has a patient	Doctor correctly fills out the diagnosis form except a condition is not selected	A new diagnosis not created and the system prompts the doctor to fill out the missing field			
40	Create Diagnosis	Doctor logged in, the condition the doctor wants to add has been created, the doctor does not have a patient	Doctor correctly fills out the diagnosis form but does not select a patient	A new diagnosis not created and the system prompts the doctor to fill out the missing field			
41	User Interface	Patient Logged in	User visits each page with a link in the landing page without fail
